- Operating System: Windows
- Programming Languages : Python(Oops,Data Science)
- Web Designing : Html
- Data Base : SQL

AWARDS

Industrial Training at Electronics Corporation of India Limited(ECIL)

INTERESTS

Playing Cricket | Dancing

PROJECTS

Wireless EV Charging System
A wireless EV charging system enables electric vehicles to charge without physical connections, using electromagnetic fields to transfer energy between a charging pad on the ground and a receiver on the vehicle. This convenient technology eliminates the need for cords and plugs, streamlining the charging process.

POSITIONS OF RESPONSIBILITY

Class Representative in 10th Standard
